This highly advanced and patented formula fights toxicity and stagnant waste on the macro level (organs and systems) and on the micro level (bacteria). Even a healthy metabolism creates toxins that need to be neutralized. Poor diet, pollution, and physical and mental stress add to that toxicity.

Healthy Aging nutrients are much more effective in combination with detoxification and optimum detoxification can only be achieved with superior nutrient support. If you are serious about moderating the aging process, you need basic nutrients, specialized age slowing nutrients and daily detoxification/cleansing nutrients. You have found the solution with this formula.
